

Purification

Reverse Osmosis Systems + Optional PH Boost Filtration

Water conditions can vary, even in the same community. The Beauchamp Reverse Osmosis (RO) Systems can be configured to meet your specific requirements. There are multiple filters with a variety of treatment options that can be tailored to local water conditions, so your water is the best it can be.

State of Michigan Drinking Water Contamination Guide

Pure Water, Every Time

Experience clean, crisp, and safe water with advanced filtration technology that removes impurities and ensures exceptional taste.

Eco-Friendly Hydration

Reduce waste with a sustainable water solution designed to protect the planet while keeping your family healthy and hydrated.

Advanced Filtration Power

Multi-stage purification systems eliminate contaminants, including arsenic, sodium, copper, lead, nitrates, sulfates, chlorine, chlorides, PFAS/PFOS, and more.

Easy Installation, Effortless Use

Quick to set up and simple to maintain, our systems offers efficient, hassle-free access to pure water straight from your tap.

Reverse Osmosis Systems are one of the most economical in practical water treatment systems for the home and office. RO systems combine the functions and advantages of mechanical and activated-carbon filters with the sub-micron filtering capabilities of RO membranes in order to remove the vast spectrum of contaminants in your water.

Our Systems produce water that enhances the true flavors of frozen juice and soup. The ice we produce is cleaner, harder and melts more slowly, leaving no residue in your glass. Additionally, you'll enjoy the benefits of mineral-free water, for use in coffee makers.

Silver Series Features

- ◆ Sediment filter screens particulate material, such as dirt, sand, or rust which may clog the other filters in they system
- ◆ NSF certified reverse osmosis membrane provides up to 99% total dissolved solids rejection
- ◆ The polishing filter absorbs any residual tastes and odors just before the water is delivered through the faucet
- ◆ Exclusive serviceable check valve eliminates noise common in other RO's
- ◆ Perfect for drinking, cooking, juice, coffee, tea, ice cubes, pets and plants
- ◆ No lugging or storing 40lb cases of water, this system costs pennies per gallon
- ◆ Quick connect fitting
- ◆ Warranty - Better

Platinum Series Features

- ◆ All the benefits of the Silver Series plus additional features for a more robust comprehensive solution
- ◆ Innovative quick change twist-and-lock design makes service simple
- ◆ Sediment Filters screens out sediments and particles with various micron size filters available
- ◆ Carbon Filters reduces elements that cause water to taste and smell unpleasant, including chlorine taste and odor
- ◆ Reverse Osmosis filters reduces dissolved substances
- ◆ Specialty Filters optimize drinking water taste and adjust to local water supply with a wide array of custom filter options.
- ◆ Single manifold ensures reliability and houses four separate filter technologies in a unique space-saving design
- ◆ Automatic Shutoff Valve turns off the system when the reservoir tank is full
- ◆ Durable, high quality, powder coated, steel reservoir tank ensures you'll have a plentiful supply of refreshing water.
- ◆ Designer faucets available in multiple styles and colors
- ◆ Warranty – Best

Model	Standard Warranty
(Commercial & Whole-House Available)	(Parts/Labor)
Silver Series	1yr/1yr
Silver Series with Booster Pump	1yr/1yr
Platinum Series	5yr/1yr
Platinum Series with Booster Pump	5yr/1yr
Calcite PH Filters (optional)	-
Booster & Delivery Pumps (optional)	-

*See manufacturer for detailed specifications, each model may vary.
