

# Softening

## Water Softeners

Soft water supports your health, benefits your home and pets, and saves money. It enhances washing power while reducing soap use by up to 70%. Using less detergent and cleaners is also better for the environment.

State of Michigan Drinking Water Contamination Guide

### Effortless Clean Feel

Experience richer lather and softer, cleaner hair and skin. Plus, say goodbye to soap scum and mineral buildup on sinks, showers, and tubs.

### Sparkle and Softness

Dishes clean effortlessly and stay spot-free, without the gray film caused by mineral buildup. Plus, your skin will feel softer and look better.

### Brighter, Softer Laundry

Clothes are softer, cleaner, brighter, and last up to 33% longer. Soft water and pure soap extend the life of fabrics and washing machines alike.

### Extended Appliance Life

Appliances that use soft water last up to 30% longer, running more efficiently and requiring fewer repairs.

	Lower	Initial Cost	Higher
	Less	Space Required	More
	No	24/7 Continuous Soft Water	Yes
	Less Efficient	Salt & Water Efficiency	More Efficient
	No	Best for Large Families	Yes
	No	Designed for Higher Water Usage	Yes
	Better	Warranty	Best
Single Tank			Twin Tank

Your path to better water.

Purification

Water Heaters

Sump Pumps

Available in single tanks only

SILVER  
SERIES

- Single resin tank operates on demand with 30% reserve capacity
- Water use is monitored for peak efficiency
- Regenerates at night only when necessary to ensure a fresh supply of soft water for the day ahead
- Utilizes a rinse process with hard water, optimized to handle lower levels of hardness and iron
- Warranty - Good

Available in single and twin tank options

GOLD  
SERIES

- Twin resin tanks operate on demand and automatically switch to second tank as needed
- Maintains soft water under all circumstances 24/7
- Water use is monitored for peak efficiency
- Regenerates at night only when necessary to ensure a fresh supply of soft water for the day ahead
- Utilizes soft water during regeneration, allowing a cleaner rinse, better efficiency, and longer life expectancy
- Increased flow rates for better media utilization
- Warranty - Better

Available in single and twin tank options

PLATINUM  
SERIES

- All the benefits of the Gold Series plus state-of-the-art design and components
- Advanced Vesta control valve for simple diagnostics
- Features smaller bead size for optimum flow rates and enhanced chlorine resistance, promoting a cleaner valve and extended system longevity
- Vortex Tank enhances contaminant removal, reduces backwash frequency saving water and energy, and improves media stability by even distribution of water across media bed for optimal filtration
- Warranty - Best
